Dear Jilin University,

### **The Results**

#### **Red Dot Award: Design Concept 2017**

It is with utmost pleasure that I congratulate and inform you that our jury has conferred an "Honourable Mention" to your work submitted, 2D Storage Rack (IS7235432).

This year, we received a total of 4,724 entries from 54 countries. Over 2 days, the distinguished panel of internationally renowned design experts gathered in Singapore for the adjudication. The numerous laudable entries we received this year made the adjudication process particularly difficult and demanding.

Upon the conclusion of the adjudication, the Red Dot: Best of the Best was awarded to 43 concepts, the Red Dot was awarded to 240 concepts and Honourable Mentions were conferred to 62 concepts. Only 6% of the entries were awarded a Red Dot, making an achievement in the Red Dot Award: Design Concept an outstanding feat of accomplishment.

The Red Dot Design Awarding Ceremony will be held on 18 October 2017 in Singapore. Jointly, we will also launch the winners' exhibition and unveil the award yearbook for 2017.

While awardees conferred Honourable Mentions will not be receiving their award on stage, it would be our pleasure if you could attend the ceremony to join the celebrations.

I wish you great success in your future endeavors and look forward to meeting you at the awarding ceremony.

Yours sincerely,

Ken Koo  
President, Asia  
Red Dot Design Award
